Introduction

The FoS mobile app provides registered users with a way to be able to track ingredients and skin data and interact with the ChrisAI chatbot.

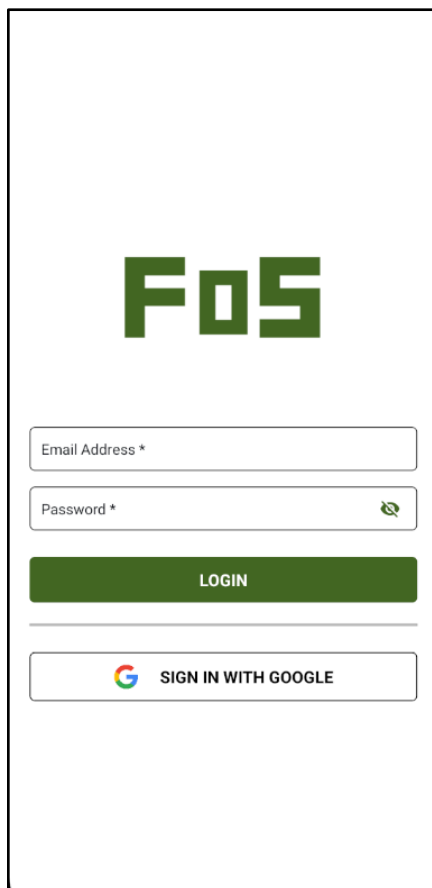

- Users are able to sign in with a registered account via Email/Gmail
- Users are able to ask ChrisAI skin-related questions

Compatibility

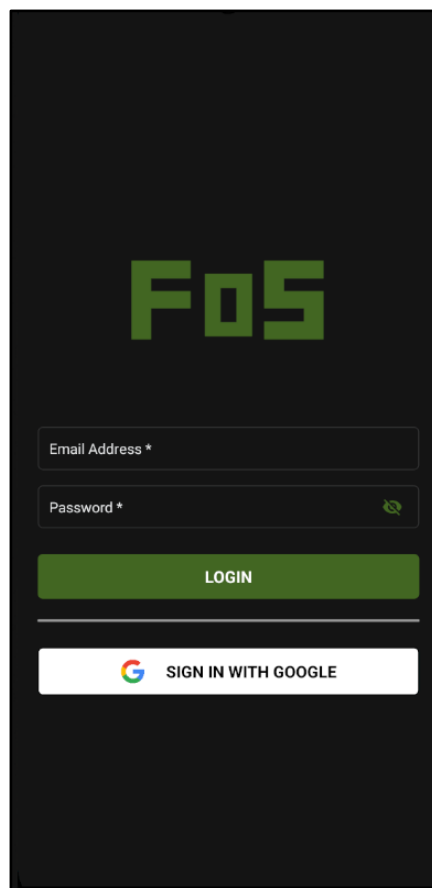

The FoS application is currently supported for Android devices.

Theme

The FoS application is available in light and dark mode, and is based on the user's selected device theme.

Light mode

Dark mode

Log in Screen

Email Address *

Password * 

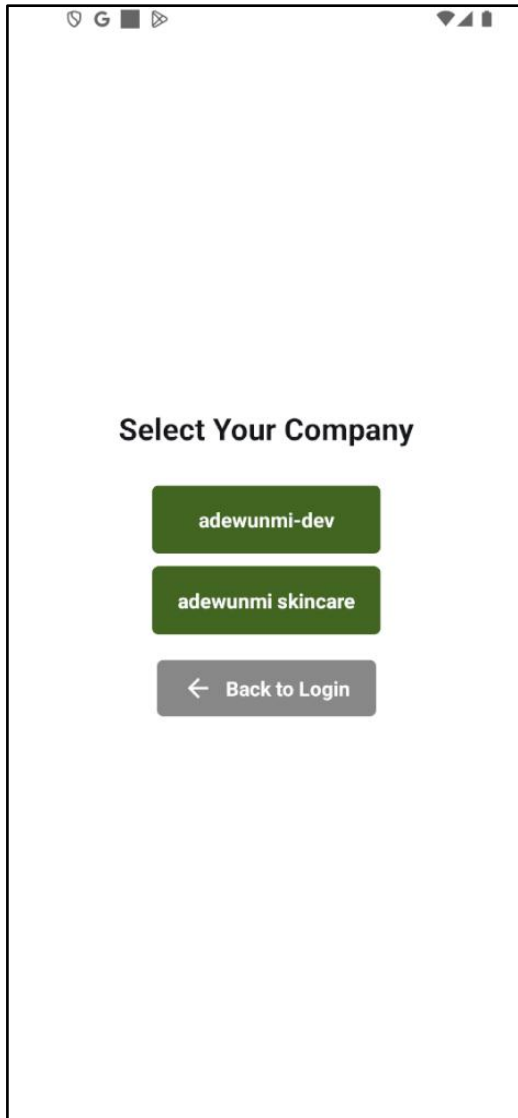

LOGIN

 SIGN IN WITH GOOGLE

This is going to be the first screen when the user opens the application. Users are required to log in using their registered email or gmail. Please contact Chris Small at chris@facultyofskin.com for registering new accounts.

Only one method of logging in is required. There are fields provided for user's email and password inputs. The toggled icon in the password field makes the password visible.

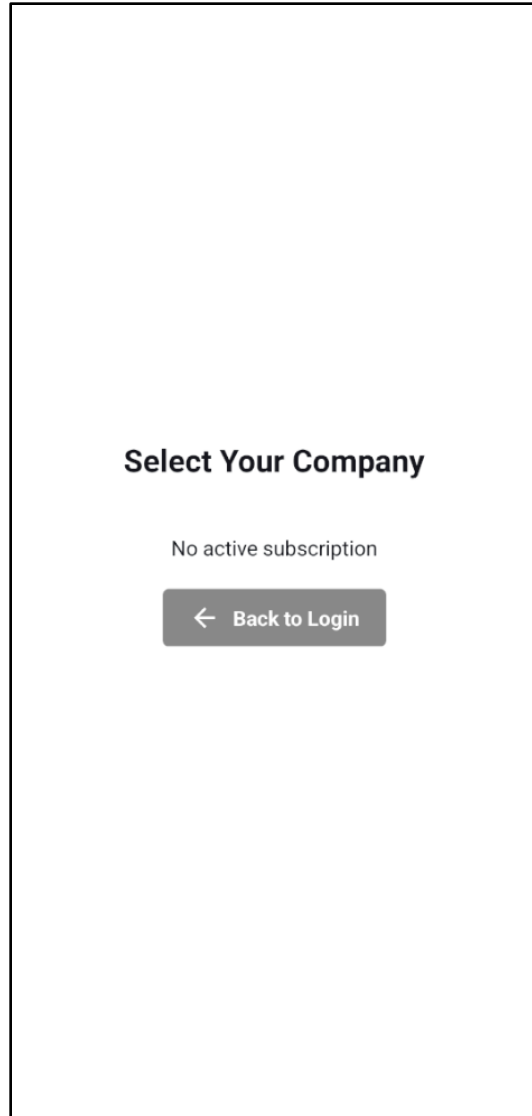

Company Selector Screen (for active subscription)

There will be a list of companies that users currently subscribe to. Users can choose their desired company to get further access to the application.

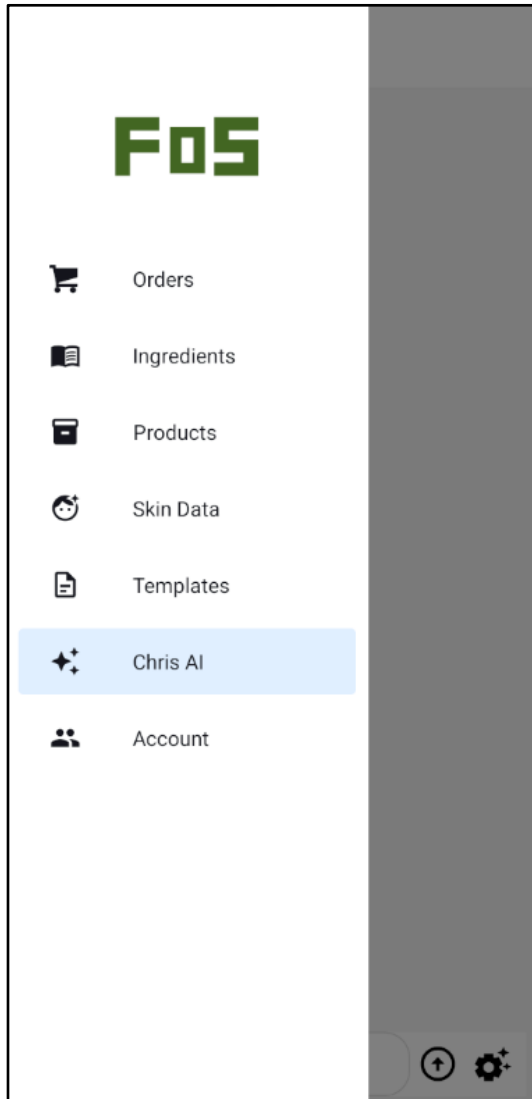

There is also a button to help navigate back to the login screen if the users change their mind.

Company Selector Screen (no active subscription)

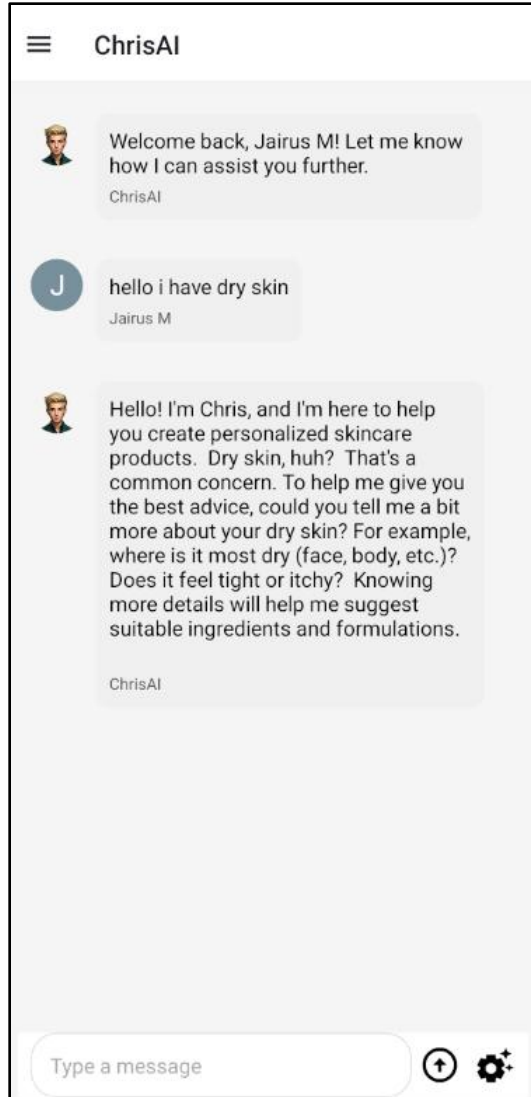

Users with no active subscription will have no list displayed. They can use 'Back to Login' button to navigate back to the login screen.

Navigation Screen

By toggling the icon on the top left of the application, users will be displayed with menus available for this application. There are Orders, Ingredients, Products, Skin Data, Templates, Chris AI, and Account.

Chris AI Screen

Chris AI screen is a *chatbot* letting users to ask questions about skincare related to skin problems. In this version of the application, Chris AI is not able to retrieve customer's data.

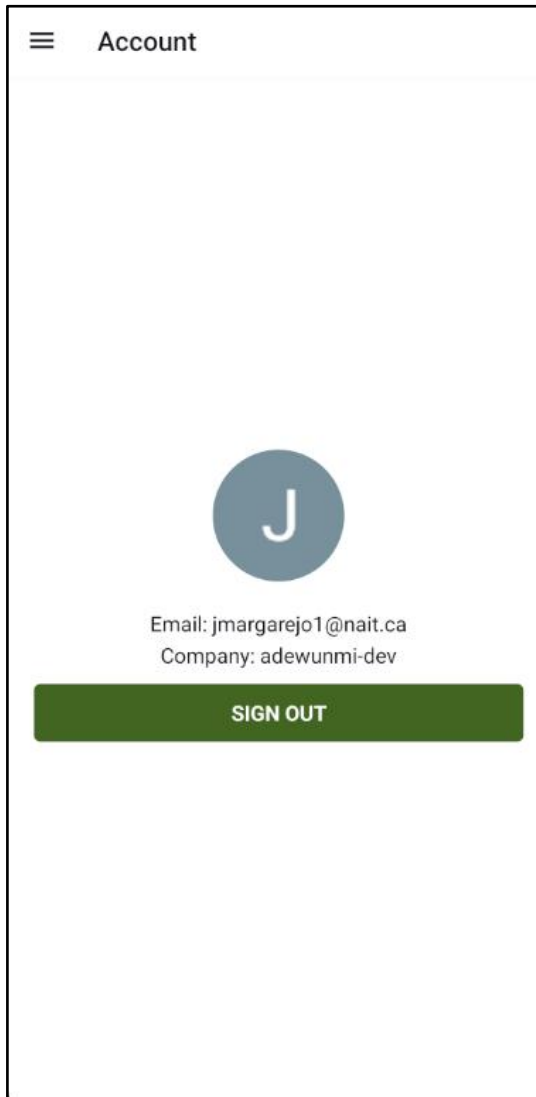

At the bottom of the screen there is the input field along with icons for sending messages and choosing a comedy setting.

Chris AI Screen (Comedy Setting)

Comedy Setting
1/10 - Not funny
2/10 - Not funny
3/10 - Not funny
4/10 - Not funny
5/10 - Neutral
6/10 - Neutral
7/10 - Neutral
8/10 - Funny
9/10 - Funny
10/10 - Funny

Comedy setting screen lists the levels of comedy for Chris AI. They can be set from a range of 1-10. This helps tailor the tone of voice of the AI to the user's preferences.

Account Screen

Account screen displays the user's information with their profile picture, email and the company they currently log into. There is a 'Sign out' button for users to sign out from their current account. After signing out, the user will be directed back to the login screen.
